

Innovation! Collis EMV PVT Online

Leiden, the Netherlands 25th May 2010: Collis is proud to announce the launch of the Collis EMV Personalisation Validation Tool (PVT) Online, an innovation excellence in software Test Tools.

Collis is a market leader in Secure Transaction Technology. Solutions from Collis include consultancy, product development and expert training associated with smart card technology. Part of Collis' product portfolio is Personalisation and Validation tools for Cards, Terminals, Devices and Host Systems.

Dedicated to innovation, Collis uses its best practices and knowledge gained from global projects to bring innovation to its customers, be it in products or services.

Collis EMV PVT Online is Collis' latest innovation and one we are extremely proud of. The 1st of its kind in the market, it enables personalisation validation of smart cards online! Subscribe; pick up your smart card and start your smart card reader and you're ready to go. It's that simple!

Users of Collis EMV PVT Online can now log on anywhere in the world, with any web browser, and validate their smart cards! This product provides all the functionality of the award winning Collis EMV PVT including the Visa-confirmed and MasterCard-qualified modules. This means that users now have access to the latest personalisation requirements 24/7. It can be used with any smart card reader (contact/contactless) installed in the user's system.

Berend van Geffen, Chief Commercial Officer, Collis comments: "We are really pleased to bring this unique product to market. Collis EMV PVT has been helping customers worldwide to pass the mandatory card personalisation regulations from payment associations. Developed based on Collis EMV PVT, Collis EMV PVT Online offers users the most comprehensive and easily accessible platform available in the market today for personalisation validation of Visa and MasterCard (test) specifications in smart cards. Developing this product excellence for online use enables customers to experience true ease-of-use and the opportunity to work with the latest version available worldwide.
