

PRESS RELEASE

Introducing Collis M/Chip Advance Functional Test Suite!

Leiden, the Netherlands 19th May 2010: Collis is very pleased to announce the launch of the Collis M/Chip Advance Functional Test Suite.

Collis is a market leader in the Payment industry offering best-in-class products and services enabling reliable issuance, acquiring, processing and certification by ensuring trust in (smart card) technology.

As part of its portfolio offering, Collis utilises its collective expertise, best practices and knowledge gained from global projects in developing state-of-the-art Test Tools. Collis' extensive experience with M/Chip testing has been the basis of the development of the Collis M/Chip Advance Functional Test Suite.

The Collis M/Chip Advance Functional Test Suite is a pre-certification Test Suite which significantly increases the chances of M/Chip Advance certification with just a single iteration. The Collis M/Chip Advance Functional Test Suite includes all of the functionality specified in the M/Chip Advance Payment and Data Storage specifications.

Similar to all Collis Test Tools, the Collis M/Chip Advance Functional Test Suite has been developed with automated testing in mind. It is easy to use, offers intelligent pre-condition processing and flexible reporting options. Card image requirements are at an absolute minimal with the Collis M/Chip Advance Functional Test Suite and it enables quick and easy batch creation.

Berend van Geffen, Chief Commercial Officer, Collis comments: "We are very pleased to launch the Collis M/Chip Advance Functional Test Suite. Collis has developed several MasterCard qualified Test Tools and is accredited by MasterCard to offer chip related consultancy and training. These qualifications, accreditation and our global experience in supporting our customers with MasterCard certification enable us to make certification easy for all Issuing parties.
