

Collis Speaking & Exhibiting at VeriFone ASPAC Customer & Partner Forum 2010

Singapore 2nd June 2010: Collis will be participating in the VeriFone ASPAC Customer & Partner Forum 2010 from June 8-10 in Taipei.

Collis is pleased to participate as a guest speaker as well as an exhibitor at the VeriFone ASPAC Customer & Partner Forum this year. Customers and Partners from across South East Asia, China, Australia, New Zealand, Korea and India will be attending the Forum. As a guest speaker, Collis will talk about 'Meeting Functional, Security and Brands requirement with new advanced payment technologies'. Collis is also exhibiting at the Partner Exhibit and Demo Showcase, featuring Collis Acquirers Test Tools for Terminal testing and certification.

Collis is a market leader in the Payment industry offering best-in-class products and services enabling reliable acquiring, issuance, processing and certification by ensuring trust in (smart card) technology. Collis offers products and services for Cards, Terminals, Devices and Host Systems. Supporting the entire chain of Acquiring, Collis tools have industry recognition and accreditation. The Acquiring portfolio from Collis includes test tools such as the Collis Brand Test Tool, Collis Card Simulator, Collis Card Spy and the Collis Host Test Tool.

Acquirers can use the Collis Brand Test Tool for assuring the quality of their payment terminals. Both contact and contactless payment terminals can be tested ensuring smooth & secure functionality. The Collis Brand Test Tool has been confirmed by Visa for the contactless ADVT-qVSDC module according to the qVSDC Device Module Test Plan.

The Collis Brand Test Tool and Collis Card Simulator have both been qualified by MasterCard as Validation Tools for the formal M-TIP certification process. Besides testing the payment terminals, Acquirers can also use the Collis Host Test Tool for ensuring that the Acquiring System is capable of handling the new messages that are being sent by their payment terminals. The Collis Card Spy is a crucial device for monitoring the communication between a smart card (contact and contactless) and a terminal (ATM/POS).

Zvi Mitlanski, Vice President & General Manager from VeriFone Asia Pacific comments: "VeriFone Asia & the Pacific Rim, markets and supports secure technology that enables electronic payment transactions and value-added services at the point of sale throughout the region. The VeriFone ASPAC Customer & Partner Forum 2010 is one of our key events in the region to illustrate our leadership and present the innovation of our customers and partners.

We are pleased to welcome Collis' participation in this event. Collis with its expertise in the smart card industry gives pertinent support to VeriFone and our customers in many acquiring projects. Indeed Collis provides high quality and recognized testing tools for our industry. The unique particularity in Collis test tools stands in the automation of the testing and pre-certification process. Collis contributes to shorten the lead time for the time-to-market of a terminal and its application. We are happy to say that Collis has a highly valuable role in the life chain of a secure and trusted transaction."

PRESS RELEASE

Nathalie Ha, Sales and Marketing Director Asia Pacific at Collis, adds: “Collis is very pleased to participate in this Forum. It provides Collis with an excellent opportunity to be face to face with customers from the entire Asia Pacific region. Collis is dedicated to developing best-in-class products and services for customers and the experience we gain from our participation in the Forum will be invaluable in terms of knowledge exchange, customer feedback and networking.”
