

Collis launches a full portfolio for Card Testing in a Production Environment

- Input File Testing: Test EMV card data before being personalized on a card
- Inline Testing: Test every single card (or other predefined intervals)
- Production: High quality sample testing when the card leaves the personalisation machine

The result is ultimate quality in your production environment. [Read more](#) about this portfolio or download our [brochure](#).

Collis opens new office in Dubai

In March, Collis opened its office in the Middle East. Our Middle-Eastern customers will now have a local point of contact for all Collis Products, Services & Training. This recent addition to Collis' network of offices throughout the world is an indication of Collis' ambition of getting closer to our customers in all regions and becoming a truly global company. We currently have 10 Collis staff based in the Dubai office. [Click here](#) for Collis Dubai office details.

Collis contributes to MasterCard contactless seminar in Stockholm

In the first week of April, Collis and MasterCard gathered in Stockholm to give a workshop to Nordic customers. The seminar focused in particular on the business case for contactless. Collis presented the successful ING NFC/contactless project in Romania where Collis has a leading role. It was obvious that there are good reasons to introduce contactless in Sweden; replacing cash for low value payments being the main business driver. The response from the audience was very positive and follow up with MasterCard is planned. For further information you can contact [Mr. Peter Olsson](#) from Collis.

EMVCo Terminal Type Approval Level 2 Renewal

In July 2009 many terminal vendors need to renew their certification for Level 2 (due to EMVCo policies). In order to be well prepared for the formal certification, Collis offers you our EMV Level 2 Test Suite and consultancy for EMV Level 2 pre-certification. For more information on this offer please do not hesitate to [contact us](#) or check out our [EMVCo Level 2 Test Suite](#) for more insight into what's involved.

Collis e-ID Inspection System Test Suite

Collis released the Collis e-ID Inspection System Test Suite for evaluating Inspection Systems for ePassport, e-ID cards and Biometric Residence Permits. Collis implemented tests from BSI (TR-03105-5), and additional tests for optional LDS data, ICAO security mechanisms and non-EAC eMRTD inspection. Following Collis e-ID Spy Tool and Collis eMRTD Simulator Tool, this test suite completes Collis e-ID Inspection System Toolkit. [Read more](#) about e-ID from Collis.

Collis receives Great Place to Work award again!

Collis is very pleased to have received a Great Place to Work® (GPTW) 2009 Award. Collis has now received the GPTW Award four years in a row. We take pride in the fact that employees find Collis a Great Place to Work. It is our goal that this enthusiasm, satisfaction and team spirit among our employees is passed on to you, our customer, in providing excellence in consultancy, products & services. Aspects Tools release Tool Box 1.1

Aspects are proud to announce Tool Box 1.1 with new features to save you time and make debugging in your mobile handset easier. As well as adding new features to Aspects Spy, we have also introduced support for three new Micropross platforms: TC3, MP60 and MP65. For handset testers we have improved the remote API in PowerUSIM and PowerSIM. Finally, for card testers, this release of Tool Box introduces Aspects Test Suite 51.010-4 to the latest version of the specification (replacing Aspects Test Suite 11.010-4). [Read more](#) about Tool Box.

Collis article published in Testing Experience

Testing Experience – a leading international magazine on testing with 210,000 readers worldwide - has published an article written by two Collis Test Experts. The article covers topics as conformance and interoperability testing, and helps you understand terms as horizontal and vertical interoperability, test oracles, EMV schemes, coverage with standards and deals with some of the problems when proving that the system complies to the standards. You can download the article [here](#). For more information on Testing Experience [click here](#).
