

# Reference Sheet

Netherlands region

“Our expectations of Collis were confirmed in the way they proved to be of **great help during the EMV migration**. Also thanks to Collis’ testing and consultancy we were able to undergo processor migration with little or no set-backs.”

Alexander Baas, Director IT

**SNS Bank**

“Due to their professionals, knowledge and test tools, Collis allows us to offer a **high quality test facility** for payment terminals to the market.”

Gaston Aussems, Managing director

**C-TAP authority**

“Collis’ Test Practices are **optimised** to suit our business environment.”

Danny Visser, Head of CCRM Test Centre

**ING Bank**

“Collis’ C-TAP Terminal Test Environment **helps to ensure correctly operating payment devices** in the Netherlands, which are prepared for the future. With the C-TAP Terminal Test Environment, Equens has obtained a **powerful tool** for the certification of new generation payment devices.”

Manager Cards & Devices

**Equens**

“The cooperation with the enthusiastic professional Collis team led to a **much faster completion** of our EMV projects.”

Erik Tak, Project Manager EMV

**Currence**

“At Margento we are pleased with Collis’ professional services and EMV Testing Tools **ensuring us faster and smoother POS terminal development and EMV certification**.”

Dr. Amor Chowdhury, CTO

**Margento**

“The training style and information that we received from the Collis Contactless & Mobile Payments in-house course has been invaluable. The **trainers are excellent** with a good knowledge base. The course allowed myself and my colleagues at Rabobank to extract knowledge for our particular purposes. It really enabled us to fit the NFC pieces together to see the overall picture.”

Peter van Woezik, Sr product manager Cards

**Rabobank**
