

Reference Sheet - Certification

“With the Collis Conclusion Test Platform we have been able to validate the personalisation of the first EMV contactless payment cards issued in Portugal, and have the certification from the International Payment Systems in time, fulfilling our board and bank client’s expectations.”

Eduardo Galvão, Head of Operations and Systems,
SIBS Cartões

“Collis continues to be a critical information source to the Bank on card trends and analysis. Collis representatives are without doubt some of the most talented and professional in the industry.”

Manchan Geraghty, IT Project Manager,
Permanent TSB

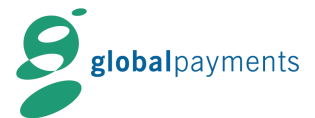

“The Collis Conclusion Test Platform really helps us in increasing the effectiveness of testing and results in much more stable systems.”

James Den, Supervisor Security Control Division,
FISC

“As the Canadian payment industry commences its long-term migration to EMV Chip over the next several years, we are committed to providing our merchants with the most robust and advanced payment solutions in the market. This comprehensive testing and certification environment from Collis is just one example of how we are facilitating a seamless EMV Chip migration for our customers.”

Jordan E. Cohen, President,
Global Payments Canada

“Collis reflects the high standards of quality expected from MULTOS products.”

Alan Johnson, Technical Director,
The MULTOS Consortium

“Collis’ Test Practices are optimised to suit our business environment.”

Danny Visser, Head of CCRM Test Centre,
ING Bank
